

ESAKIS IN OSAKA

AUGUST 2020

City to City CTCJ
The Japanese
Intensive for
Church Planters
Tokyo

October 12-23

Grace, like water, flows
downward... No matter how
low we sink, grace flows to
that lowest part.
Philip Yancey

We have had some answers to pray!
The bi-lingual church in downtown
Osaka, where we have been preaching
monthly, had three people confess their
faith and be baptized on July 26—three
Japanese men! The church was closed
down for about three months and
opened up to these developments. It
was an answer to "open hearts during
the pandemic."

COACHING CHURCH PLANTERS

Over the last five months I was able to have productive coaching on Zoom for 8 church planters, who had signed up for the CTCJ Intensive for Church Planters in March. It has been a good way to get to know these candidates, keep connected until the rescheduled intensive, and be encouraged about supporting the next generation. Please pray for a smoothly running intensive from October 12-23, either in person, virtually or a combination of both.

FINDING AND TRAINING JAPANESE COACHES

Every church planter, who attends the CTCJ Intensive, commits to six months of free coaching. To carry out this task, we at CTCJ need to find church planters who are also interested in

becoming coaches and who are temperamentally suited to coaching.

Pray that we can find two possible coach candidates. Pray that I can translate, or have translated, the coach training materials I'll need in 2021 to train them.

Our grand-daughter will be born any day now. Please pray for a safe delivery. We would love to visit sometime, so prayers for that too!

Dr. Nobuyoshi came to my first Japanese Bible Study in St. Louis, in 1991. I was a seminary student and he was an exchange researcher at Washington University. He returned to Hiroshima National University Medical School as a radiologist. He later studied public health. In 2015, he began working with Muhimbili University in Tanzania, becoming head of the Japan branch of Good News Medical Volunteers dedicated to "healing the body but saving lives and souls." Here he is pictured with the Malawi deputy ambassador and ambassador at the Embassy in Japan, in January 2020. It was exciting to hear how God has led Dr. Nobuyoshi, remembering that I was witness to the "grace flowing like water" that changed his life.
