

# ESAKIS IN OSAKA

CTCJapan 2022 | CP Coach Selection | Gospel Sessions

## CP Coach Selection

This summer, the coach training of six individuals has been completed. We are in the final evaluation phase. **Please pray** for wisdom in the evaluation and assignment.

**Pray**, also, that as the coaching from the last intensive for church planters goes smoothly from free coaching to paid coaching, if the church planter chooses. The payment helps to support the coaching program, and the volunteer coaches.

## September 10-October 8 Gospel Sessions

Marcia begins a 5-Saturday Gospel training for five women from using easy-to-remember gospel tools. The women are from Japan, US and three other Asian countries. This is the answer to a prayer before Covid, to begin a women's ministry in this. **Please pray** that there would be a clear presentation and genuine sharing.

## City to City Japan Church Planter Intensive 2022 in Kyoto: September 26-October 7

The CP Intensive is the flagship training offered by CitytoCity Japan. This two-week training program is aimed at church planters and other invited ministry-minded individuals who are in the process of building gospel-centered churches. Two years ago this intensive was held in Tokyo. This year it will be held in Kyoto, southwest of Tokyo. The location will serve as a bridge to participants from western Osaka and Kyushu Island.

The 10 participants will be immersed in urban church planting concepts, theology to grow healthy churches, leadership modules, and other church planting principles. The 10 were provided with an assessment of their strengths and areas to develop. They will also be provided with a coach for 2-years, and as director of coaching, this is what Koji is responsible for.

**Please pray** that the intensive will be effective.
